DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-9, 19-24 and 30-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over De Vore (2528582).

Regarding Claim 1-9, 19-24 and 30-33, DeVore shows a wavefront transformer for transforming an incident EM wavefront having a given shape 11, 15 to a reflected wavefront Rf having a different shape comprising a substrate (Fig. 4) having a conductive surface 25, 27 for reflecting EM energy, a plurality of openings 31 in the conductive surface, each opening formed by a respective cavity extending from the conductive surface, where each cavity has a selected position on the surface with respect to the focal point, all arranged as claimed. It would have been obvious to the skilled artisan that the phase shifts in the wavefront are determined by the spacing and size of the cavities 31. As to Claim 3 a flat metal plate would have been obvious to the skilled artisan. Figures 2 and 3 show the construction from flat plates of uniform thickness. Regarding Claims 19-24 and 30-33, the shape, position, spacing and depth of the cavities is considered by the skilled artisan to be obvious, absent a recitation of criticality.

Allowable Subject Matter

3. Claims 25-29 are allowed.
4. Claims 10-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
